# INDONESIA X AND THE MILLENNIALS

9 OKTOBER 2018

# Millenials:

Individuals who reached adulthood around the turn of the 21<sup>st</sup> century, born between early 1980s to early 2000s (high school graduates to 35 year olds)

- Born before computers and cell phones became widespread
- Follow Generation X (born 1965 until 1981)
- Followed by post millenials (born 2004-onward)

# Millennials domination in Indonesia

- Of total population, those in productive age (15-60 years of age) is around 166 million, more than 50 %.
  - 32 % are millennials
- > demographic bonus will be achieved if millennials are equipped facing it.

# Characteristics:

## Some positive points:

- High curiosity
- Usage of high-tech equipments
- Very updated from usage of social media
- love to innovate and very creative

## Some negative generalization:

- Vague, lazy
- Unlike baby boomers whose target is to buy a home, millennials overspend on luxuries, coffee and avocado toast

# Millennial financial habits

- Big spenders but on experiences rather than material possessions
- Don't save enough, unable to purchase a home

Detiknet, Bandung - IndonesiaX yang bergerak dalam penyedia kursus online terbuka menambah mitra untuk diajak dalam mengisi materi di [www.indonesiavax.co.id](http://www.indonesiavax.co.id) yaitu Institut Teknologi Bandung (ITB).

Dengan MoU yang ditandatangani Jumat (2/10/2015), maka siapapun pengguna internet serasa menjadi mahasiswa ITB dengan mengikuti materi kuliah secara online dari kampus tersebut.

Penandatanganan MoU antara IndonesiaX dan ITB ini dilakukan langsung oleh Presiden Direktur IndonesiaX Lucyanna Pandjaitan dan Rektor ITB Kadarsah Suryadi dengan disaksikan oleh mantan Mendiknas M Nuh yang kini menjadi Ketua Dewan Penasihat IndonesiaX.

"Respon dari ITB ini sangat cepat untuk memenuhi ajakan kami. Kami sama-sama memiliki kesepahaman dan tujuan yang sama yaitu bagaimana pendidikan bisa dinikmati oleh sebanyak mungkin masyarakat," ujar Nuh saat memberikan sambutan di Gedung Rektorat ITB, Jalan Tamansari, Bandung.

Rektor ITB Kadarsah menuturkan, di ITB sendiri telah memiliki 600 mata kuliah yang di sampaikan secara online, dimana 5 diantaranya sudah masuk dalam Pembelajaran Daring Terbuka Terpadu (PDTT).

"Kami ingin ikut menjadi bagian IndonesiaX ini dengan membagi materi yang kami berikan pada mahasiswa kami," katanya.

"Baru saja saya menyelesaikan kursus online MOOC dari IndonesiaX "TS101 Supply Chain Management" dari Profesor Nyoman Pujawan. Kursus online MOOC ini memberikan pengertian dasar tentang supply chain (SC), dengan durasi selama kurang lebih 1.5 - 2 jam setiap module nya yang mana menurut saya cukup pas untuk memberikan dasar cakupan SC ataupun me-refresh pengertian tentang SC. Terima kasih Pak Nyoman atas sharing nya, usulan saya untuk masa mendatang di tambah lagi modul nya seperti warehouse management, transportation management, inventory control dan sebagainya."

Yang penting adalah karakter suara kita. Gunakan power suara anda ...jangan berteriak, mainkan kata-kata melalui intonasi dan penekanan ....volume akan mengikuti bila anda menghayati apa yang disampaikan ...salam,db

Development Economics

UniversitasIndonesia

Aug 31, 2017 | Dec 13, 2017 | 2 hour/week

## About This Course

This combined regular and online course is designed for students to understand the concept and process of economic development using the relevant economic theories and models. To the extent development process involves social, political, institutional, historical and cultural aspects, the role of these non-economic factors and their interactions with economic approaches are discussed. Research in development economics ranges from macroeconomic theme (fiscal, monetary, industrialization, productivity, etc) to more micro subjects (infrastructure, institutions, family decision, etc) and external factors (capital flows, international cooperation, global institutions, etc).

Central to all topics are the policy implications and the corresponding impact analysis. Given the breadth of coverage, a selective approach is taken, and cases in developing countries including Indonesia will be used.
